## Creating term in Glossary Grid

To create a term in **Glossary Grid**:

1. Click on **New Term** above the **Glossary Grid**.
2. Enter the name of term.

3. Press **Enter** to confirm editing.

## Organizing terms with labels

You can categorize the terms by defining and assigning label(s) to them.

### Creating label

1. Click on **Manage Label...** at the top of the **Glossary Grid**.

2. In the **Manage Label** window, click **Add....**
3. In the **Glossary Label Specification** window, enter the name of label and give it a unique color.

4. Click **OK** to confirm editing.

### Adding label to a term

1. Select the desired term in the **Glossary Grid**.
2. Click the **+** button under the **Labels** column.

**Note:** If the Labels column doesn't appear, click **Configure columns...**, open the **Properties** tab and select it under the **Others** folder.

3. Select the label(s) to add to the term and click >.

4. Click **OK** to apply and return to the **Glossary Grid**.

## Listing terms by their label

1. Click on **Configure Grid...** at the top of the **Glossary Grid**.

2. Under the drop down menu **Scope**, select **With Label...**

3. In the **Scope** window, select the label to be included into the scope.

4. Click **OK** to confirm and return to the **Glossary Grid**. From now on, only terms that contain the selected labels will be listed in the grid.
